

# CARTER + CO

## 6 Biffin Street Cook ACT

3 1 1

This solar passive home offers a feeling that not many homes do.

The high ceilings and cedar framed windows create a bright and airy space that is warm and welcoming. The solar passive design helps keep the home warm over winter, and cooler over summer. Ducted heating and ceiling fans ensure comfort year round.

Large windows along the front of this north facing home allow for natural light throughout, and views onto the beautiful front courtyard.

Positioned an easy walk from the Cook shops, Cook oval and just a quick drive to Jamieson Shops, this home truly is a unique opportunity on the rental market.
